

Creating a CCBC Student Account for the Online Orientation

To create an orientation account, click on "Student Login" as demonstrated in the first screenshot below. Then, click on "**CREATE A NEW STUDENT ACCOUNT**" as demonstrated in the second screenshot below. On the "**Create New Student Account**" screen (as demonstrated in the third screenshot below), input the required information and click the "**Create**" button. Please note that this orientation is not single sign-on for CCBC, so you will not have a preexisting account. You will need to create an account, and you should use your CCBC username and password to do so.

A Spanish version is also available. The video recordings are still in English, but the video transcriptions are in Spanish. Once you create your account for the first time, you will be presented with a screen for language preference. Once you are using the orientation, you can change your language selection via the Menu option: Menu → Update Account → Update Language and Guest Type (bottom right). The fourth screenshot below demonstrates this option.
